The Giant Torch Lily of Australia. A magnificent plant with long Dracæna-like foliage. It throws up a lofty spike of flowers like an immense fiery torch, the stem of which is often 12 to 14 feet high—a beautiful and distinct plant for a semi-tropical garden. The tubers, which are from four to six inches in diameter, carry well; price from 6s. to 9s. per dozen, £2 per 100 and £4 per 100; smaller tubers 20s. per 100. Good flowering tubers £15 per 1000.

(Note the very low price for *Acacia Pycnantha*).

The Australian Tulip or Waratah. A shrub growing four or five feet, with large green, cut, glossy leaves, bearing, upon the extreme points of the shoots, flowers of a deep crimson colour, resembling a double tulip, but four times the size, being four or five inches across. Is quite hardy in an ordinary greenhouse, loves the side of rocky mountains with poor soil. Plants of these are quite safe for export, 12s. per dozen, £4 per 100.								

PALM PLANTS, Grown for Export.

These plants we pack in strong cases with double canvas covering; they travel safely and come far less expensive than when warden cases are used.
